PROFESSIONAL SUMMARY

- 5+ years of working experience in analysis, design, development, deployment, product support in the implementation of User Interface applications and integration of highly transactional and scalable applications.
- Experience in IT industry, web application development, object-oriented programming using Java/J2EE technologies and JavaScript libraries.
- Experience writing **HTML/HTML5** code for designing static web pages and used various advanced HTML 5 tags, classes, attributes, and elements.
- Experience working in **CSS/CSS3** for styling website layouts designs and used the behavior of writing external, internal and inline CSS files.
- Developed interactive, mobile-friendly, responsive web designs (RWD) using **Bootstrap** UI and used advanced bootstrap3 classes and media queries.
- Worked with CSS pre-processors (LESS) to convert and customize data.
- Experience in developing efficient user interaction layer using JavaScript, and JQuery.
- Experience in developing single page applications using AngularJS inbuilt features like services, filters, directives, expressions, and modules.
- Experience in developing custom object-oriented javascript frameworks like CHP.
- Experience in developing REST Web services and validating Restful services using Postman.
- Good knowledge and exposure towards **SOAP** web services.
- Experience with Eclipse, IntelliJ IDE's in developing Enterprise Web Applications.
- Experience with **JSON** for storing and exchanging data using HTTP network protocol.
- Handful experience with automation testing frameworks **Selenium, TestNG and Jasmine**.
- Experience in developing user efficient charts for analytics using highcharts.js
- Well versed with Software configuration management tools like Tortoise **SVN**, **Perforce**.
- Expertise in debugging and troubleshooting using Firebug, Internet Explorer, and Chrome Developer Tools.
- Efficient in writing queries and working with different tools like DB Visualizer and SQL Developer.
- Experienced in working with search engine i.e Apache Lucene Solr
- Experienced in working with Node.js/NPM and **Grunt** task runner.
- Good understanding of usability principles for web design.
- Expertise in the usage of Agile approaches including Test-Driven Development and Scrum.
- Experienced in mentoring peer developers, working with senior developers and higher management.
- Very good understanding of Software Development Life Cycle (SDLC) Methodology.
- Ability to think out of the box to analyze and provide refined solutions.
- Ability to work with a flexible schedule with individuals at all levels in the organization.
- Good analytical, troubleshooting, and problem-solving skills, willingness, and ability to learn new technologies quickly and very flexible to mingle with new environments.
- Self-starter always willing to learn new technologies and Team Player with very good communication, organizational and interpersonal skills.
- Fast Learner, approachable, self-motivated professional providing solutions, working productively as a team member or independently

UI Developer

TECHNICAL EXPERIENCE

- Web Design: HTML5, HTML5, XHTML, CSS, CSS3, LESS/SASS, DOM, JSP, JQuery, JavaScript, CSS, Bootstrap, Angularis 1.6, Highchartsis, Responsive Web Design, Ajax.
- Technologies/ Frameworks: JAX-RS, JSP, JDBC, XML, Jersey Client, JSON
- Programming languages: Java
- Database: SQL Server 2012 & 2014, Oracle 11g&12C, PostgreSQL 9.4
- Browsers: IE, Mozilla, Chrome, and Safari
- Testing Frameworks/ Automation Tools: Selenium, TestNG, Jasmine
- **Operating Systems:** Windows XP/7
- Web/App Servers: Tomcat, JBoss EAP 6.4
- Search Engines: Apache Lucene Solr 5.3.x
- Tools: SoapUI, NotePad++, JSFiddle
- Design Tools/IDE(s)/Development Tools: Eclipse, IntelliJ
- Build Tools: Ant, NPM, and Grunt
- **Rest Tools:** Postman
- Database Design Tools: SQL Server, DB Visualizer
- Methodologies/ Tracking Tools: Agile/ Jira
- Version Control Systems: Tortoise SVN, Perforce

PROFESSIONAL EXPERIENCE

OpenText Corporation, Addison, Texas

November 2016 - December 2017

UI Developer

OpenText Corporation develops and sells enterprise information management software. OpenText Qfiniti delivers a unified, centrally managed workforce optimization (WFO) platform for multichannel interaction analysis, with real-time agent support and contact center performance management capabilities. By automatically delivering relevant, accessible, and actionable customer intelligence to the organization, you can understand the meaning of customer interactions and deliver outstanding service across the globe.

Responsibilities: -

- Involvement in all stages of Software development life cycle including Analysis, development, implementation, testing, and support.
- Developed User Interface using HTML/HTML5, CSS/CSS3, JavaScript, and JQuery, AJAX, JSON and Angular JS.
- Developing CSS3 style sheets to give gradient effects and using LESS CSS pre-processor for customizations.
- Developed single page web application using Angular JS.
- Created Angular JS controllers, services and used Angular JS filters for filter functionality in the search box.
- Developed layout and Responsive Web Pages using **Bootstrap**.

kolliramya66@gmail.com 972-989-1761

- UI Developer
 - Involved in writing application-level code to interact with APIs, Web Services using AJAX, and
 - Expertise in using source code control systems such as **Perforce**.
 - Built dynamically generated dropdown lists using Ajax, JQuery and Angular JS.
 - Debug the application using Firebug to traverse the documents and manipulated the Nodes using DOM and DOM Functions.
 - Created reusable templates and style sheets based on UI standards and guidelines.
 - Performed functional tasks using specifications and wireframes.
 - Debugged JavaScript using Chrome developer and Firebug.
 - Coordinate with Interface Design Architects for meeting accessibility standards at code level
 - Involved in defining, estimating user stories using **JIRA** for AGILE development.
 - Participated in developing Responsive Web Designs using Bootstrap.
 - Working on Jasmine framework to perform testing.
 - Working with **Node.js/NPM and Grunt** task runner.
 - Using AJAX extensively to implement front end /user interface features in the application.
 - Developing the pages and screens with table-less designs meeting W3C standards.
 - Responsible for ensuring the pattern consistency across all pages.
 - Design and develop the web pages from mockups.
 - Actively participated and provided feedback in a constructive and insightful manner during weekly iterative review meetings to track the progress and figure out the issues.
 - Ensured site design integrity and quality control consistency throughout the project's lifecycle.

Environment: - HTML/HTML5, CSS/CSS3, LESS, JavaScript, JQuery, AJAX, JSON, Angular JS, Bootstrap, Responsive design, Grunt, Perforce, Node.js, NPM

OpenText Corporation, Hyderabad, India

January 2014 - August 2016

Senior Software Engineer

OpenText media manager (OTMM) is an open digital-management application and framework that provides access and flexibility to capture, manage and dynamically use digital assets. The new HTML5 interface is designed using various open-source UI technologies and leverages the Rest API for interacting with the application interface. As a constructive individual and as a team member delivered multiple capabilities using Java/J2EE and JavaScript Frameworks.

Responsibilities: -

- Involved in Software Development Life Cycle (SDLC) of the application, User Stories, design, analysis, code development and product support.
- Analyzed user needs and software requirements with Stakeholders to determine the feasibility of design within time and cost constraints.
- Developed the User Interactive web pages in a professional manner with using web technologies like HTML5/HTML, XHTML, and CSS3/CSS as per company's standards.
- Converted raw images and layouts from a graphic designer into HTML/CSS themes.
- Developed user experience layer using LESS which is a CSS pre-processor for customer specific integrations.

UI Developer

- Developed efficient user interface using AJAX, CHP framework, and JavaScript, JQuery as scripting libraries.
- Developed scalable single page application using **AngularJs 1.6.**
- Involved in the creation of an interface to manage user menu and bulk update of attributes using Angular.js, EXT.js, and JQuery.
- Developed **RESTFUL Services** using jersey client to interact with the application interface.
- Extracted data in UI for different clients using JSON format.
- Worked on media management web services that publish data using SOAP services.
- Worked with Jenkins for CI integration to automate the deployment process.
- Worked with Software configuration management tool **Tortoise SVN** and **Perforce**.
- Worked on Jasmine framework to perform unit testing.
- Worked on **Selenium** web automation framework to automate system integration testing.
- Worked with Node.js/NPM and Grunt task runner.
- Performed validation of completed sites including the debugging and testing of code.
- Responsible for quality assurance of finished websites including the validation of web forms and links.

Environment: - Java, J2EE, HTML5, CSS3, LESS, AJAX, JavaScript, Angular, JQuery, Selenium, Jasmine, Jira, Solr, Tortoise SVN, Node, NPM, Grunt, Jersey Client, SOAPUI.

OpenText Corporation, Hyderabad, India

January 2013 - December 2013

Associate Software Engineer

OpenText **Portal** is a web-based application enables users to rapidly build, customize, and manage multiple sites across the extended enterprise. It provides a highly scalable and efficient means of aggregating content and application for use across a variety of initiatives inside and outside the security system.

Responsibilities: -

- Involved in Requirement Analysis, Design, and Documentation.
- Worked with business analysts to understand their business models and goals and help define strategy, content, and features.
- Participated in the day-to-day meeting, status meeting, strong reporting and effective communication with project manager and developers.
- Developed and implemented user interfaces using HTML, CSS as per latest W3C standards.
- Built Web pages that are more client interactive utilizing JQuery plugins for Drag and Drop, AJAX, JSON, JavaScript, and Bootstrap.
- Customized the existing portlets by developing themes and grids using the bootstrap.
- Effectively utilized the features of CSS and HTML to present data in a visually appealing format.
- Developed efficient charts for analytics using highcharts.js
- Developed elegant and scalable solutions using object orientated concepts in Java.
- Worked on **Perforce** for version control.

RAMYA KOLLI

UI Developer

kolliramya66@gmail.com 972-989-1761

- Worked on Selenium web automation testing framework to automate application testing.
- Responsible for checking cross-browser compatibility and hence worked on different browsers like Internet Explorer, Firefox, and Google Chrome.

Environment: - Java, HTML, CSS, Bootstrap, JavaScript, JQuery, highcharts.js, Selenium, Perforce.

Plumsoft Solutions, Hyderabad, India

June 2012 - December 2012

Associate Software Engineer

Responsibilities: -

- Worked with the team of architects to gather requirements and enhance the application functionality and add new features.
- Created Mock-up designs and developed various functionalities with JavaScript and JQuery.
- Extensively used Ajax calls to send parameters and fetch data based on the user-triggered events.
- Designed the front-end applications, user interactive (UI) web pages using web technologies like HTML, XHTML.
- Used CSS, HTML to make effective and cross-browser compatible front-end pages with attractive and easy to use functionalities.
- Fixed bugs in the production and carried out **Unit Testing** for the developed functionalities.
- Worked on **SVN** for version control.
- As part of testing prepared effective Test Scripts for each of the developed functionality.

Environment: Java, JavaScript, JQuery, HTML, DHTML, CSS, AJAX, SVN, Windows.

EDUCATION

Bachelor of Engineering in Computer Science, Vignan University, India.
